CIO-SP3 Contract Vehicle

Contract Overview
The CIO-SP3 government-wide acquisition contract (GWAC) facilitates the planning, acquisition, and deployment of large-scale IT program requirements for all US federal civilian and defense agencies. Managed by the National Institutes of Health Information Technology Acquisition and Assessment Center (NITAAC), CIO-SP3 includes 10 task areas providing comprehensive IT services and solutions in support of the Federal Enterprise Architecture, the Department of Defense Enterprise Architecture, and the Federal Health Architecture.

Task Area Overview
These 10 task areas encompass the technical scope of this contract. Use them as a guide for placing task orders for services/solutions on CIO-SP3. CIO-SP3 supports virtually any IT solution, and is designed for maximum flexibility. If a customer is unsure of which task area(s) their requirement falls under, NITAAC will assist in making the determination. The 10 task areas are:

- Task Area 1: IT Services for Biomedical Research, Health Sciences, and Healthcare
- Task Area 2: Chief Information Officer (CIO) Support
- Task Area 3: Imaging
- Task Area 4: Outsourcing
- Task Area 5: IT Operations and Maintenance
- Task Area 6: Integration Services
- Task Area 7: Critical Infrastructure Protection and Information Assurance
- Task Area 8: Digital Government
- Task Area 9: Enterprise Resource Planning
- Task Area 10: Software Development

CIO-SP3 GWAC Benefits
- Task order awards in 30 days or less
- Federal agencies do not need a special 'Delegation of Procurement Authority' from NITAAC
- Easy-to-use online systems for streamlined requirements competition and management
- Competitive, pre-negotiated prices for services/solutions that cannot go up, but can be negotiated lower
- Two levels of contract competition – pre-competitive at the Master Contract level and can be further negotiated at the task/delivery order level
- No need to synopsize or post requirements competed through an IDIQ contract according to Far Subpart 16.505(a)(1)

CIO-SP3 Key Features
- $20 billion contract ceiling with a ten-year period of performance ending on 5/31/2022.
- Multiple award indefinite delivery, indefinite-quantity (IDIQ) GWAC available to all federal agencies CONUS and OCONUS.
- Supports all contract types and provides the flexibility to use “hybrid” contract types to support unique requirements.
- One percent contract access fee capped at $150,000 on any task order base or optional period (not to exceed 12 months) with funding in excess of $15 million.
- No protest on orders under $10 million, except on the grounds that the order increases the scope, period, or maximum value of the contract. Protests of orders in excess of $10 million may only be filed with the Government Accountability Office, in accordance with the procedures at FAR Subpart 33.104.
CIO-SP3 Contract Vehicle

- Complimentary, comprehensive requirements assessments within 24 hours
- Support from contract and IT specialists from pre-award to closeout
- Customer Support Center answers questions within 24 hours

The Salient CRGT Advantage

With more than 25 years of experience as a government systems integrator, we have transformed complex IT challenges into highly functional, streamlined solutions for our nation’s defense, homeland security, intelligence, and federal civilian agencies, as well as for state and local government. Salient CRGT is a well-established provider of:

- Secure IT infrastructure and outsourcing solutions worldwide
- Powerful capabilities in data analytics, data warehousing, and big data
- Full lifecycle software development backed by CMMI-L3 processes and metrics
- Health IT solutions based on more than 25 years of experience supporting federal and commercial healthcare, wellness, and benefits-based organizations
- Award-winning classroom and e-delivery training, modeling, and simulation solutions

Salient CRGT’s Corporate CIO-SP3 Program Management Office (PMO) provides outreach and services to our public sector customer base. The IDIQ PMO is a one-stop service organization; we provide task order solutions to our Federal Government customers.
